

ZINGER[®]

GO ANYWHERE

The ZINGER will take you anywhere- and you can take the ZINGER anywhere.

Just pull the release cable and the 17.5kg ZINGER collapses instantly. It takes only seconds for one person to load one or even two ZINGERS into the trunk of a small car.

Here's what the inventors Royce and Joel Husted from Virginia USA say about their invention:

"As inventors, we believe that the simplest solutions make the greatest inventions. We recognized that traditional power chairs and scooters are needlessly complex, cumbersome, and heavy. So we set out to invent the most convenient power chair ever. It started with the ultra simple and reliable traction drive and steering system. This provides the ZINGER with its amazing maneuverability and "no front handlebar design" making it ideal for indoor use. It also allowed us to design its revolutionary instant folding frame keeping the total weight below 18 Kgs. As a bonus, it is the only power chair that looks sporty and is fun to drive. The ZINGER has exceeded our expectations; we think it will exceed yours too."

Battery pack removes with anti-theft key for easily trading to a fresh battery.

Standard safety features include a loud beeper horn and anti-tip rear wheels.

Swing away footrest makes the ZINGER easy to get in or out of.

Other so-called "travel scooters" have handlebars that make it impossible to pull up to a table or a desk and they cannot turn tightly enough to be effective indoors.

Control system is easy to learn and a super slow mode for first time users.

Product specification

SPEC.	DATA
Overall Weight	38 Lbs (17.5KG) (including battery)
Dimension L x W x H	31" x 25" x 37" (785 x 645 x 935 mm)
Folded L x W x H	38" x 25" x 10" (955 x 645 x 250 mm)
Seat Dimensions L x W	13" x 16.5" (330 x 420 mm)
Seat Height	19" (485 mm)
Speed (variable in three ranges)	Slow (learning) range: 0-1 Mph (1.5 km/h) Medium range: 0-3 Mph (5 km/h) Fast range: 0-6 Mph (9.5 km/h)
Range	8 Miles (13 Km)
Turning Radius	28" (710 mm)
Motor	brushed DC 36V, 250W, 7A
Material of frame	Aluminum 6061
Battery	36V, 6.6 Amp Hour, 240 Watt Hour, Lithium-Ion
Charger	2.1A for Li-ion, Automatic (fully charged in 3.5 hours)
Steering/Braking System	Mechanical traction on tire control system
Front Wheels	6 inch non-marking PU solid
Rear Wheels	9 inch non-marking pneumatic
Anti-Tip Wheels	2" (50mm) solid
Max User Weight	250 Lbs (120 KG)
Warranty	One Year (except tires)

Ten years ago inventors Royce and Joel Husted set out to create the power chair of their dreams. Today their patented innovations along with DK City's engineering and manufacturing excellence have produced the ZINGER. So that people truly can: .. **Go Anywhere.**

Accessories and upsell items are available
Accessories : cup holder · Walk-Behind Kit · basket · seatbelt, etc
