Pronto! 18 V4 is almost like your best friend

Meet interesting people and exchange addresses. Record an impromptu thought on the voice recorder. Read a good book during your travels. Pronto! 18 V4 will be your helpful companion in many situations.

It's not only one of the smallest and lightest organizers with braille and speech output, but it's also easy to operate: four function keys and a navistick (a mini-joystick) help you perform the most important tasks. High-quality braille cells allow comfortable reading. Inputting braille is also easy and silent which is important in situations such as in lecture halls and libraries, at conferences, or during meetings.

Pronto! 18 V4 features BAUM's legendary simultaneous device connectivity. Thanks to a USB and four Bluetooth connections, you can connect Pronto! to all of your devices, and remain connected to them. A command on Pronto! lets you switch from one device to the next, and back again. This means it is possible to switch quickly from your notebook to your smartphone to rapidly type an SMS, and then switch back to your computer to resume your work.

Pronto

The internal memory of 32 GB Flash is expanded by a SDHC-card of 4 GB included in the package. Also included is a quality carrying case which can be hung over the shoulder or attached to your belt. Pronto! 18 V4 can be used in its carrying case so you don't need an "extra hand" to hold it. The built-in long-life Lithium-ion battery only requires recharging after 20 hours or more of use. More than that, Pronto's magnesium die-cast surface gives it an exclusive and elegant appearance.

Interactive connection with five devices at the same time.

Pronto! 18 V4 lets you listen to your music and radio stations. It will even read DAISY books.

The cleverly designed carrying case allows you to use all keys of your organizer without removing it.

...connect to your iPhone with VoiceOver, read your notes or
PDF documents, listen to your favourite music, and much more.

BAUM

Reliability-proven: Pronto-software with many functions:

Write texts and edit documents with the text-editing program; even **doc and docx** format.

Surf via **WLAN**, read your emails, send and receive email attachments.

Make appointments, record addresses, and take notes.

Set time-checks, dates and operate your alarm-clock, stopwatch or timer.

Manage your files and **ZIP archives**

Use Pronto!'s comfortable braille keyboard for any operations on your **smartphone**, e. g. iPhone.

Excel viewer for a quick look into sheets

Listen to music, subscribed podcasts or recorded notes on the built-in MP3-player.

Read DAISY books while you are on the move.

Listen to Internet radio stations from all over the world (stream) and bookmark your favorites

Pocket calculator (standard and scientific)

Compass and barometer (altitude and air pressure).

Reading and writing braille grade II – as well as converting into braille grade I.

NUANCE

Natural sounding speech synthesizers **Nuance Vocalizer**; English speech already installed: Daniel, Serena (UK) or Tom, Samantha and Jill (US). Additional languages and voices are available optionally upon request.

From the very beginning we have taken great care to develop the easiest and most reliable ways to operate the Pronto! functions. The result of our efforts is truly stable and comprehensive software. There are function keys for the user to define as shortcuts as well as a keyboard. As we upgrade the software to incorporate new developments, it will continue to meet the latest standards.
